Links and Images Activities- Unit 2.2

Activity 1: Personal Profile Page

Add the following feature in the profile page you created in unit 2.1(HTML Fundamentals).

- Add an anchor tag (<a>) to direct users to your social media profile. Use appropriate text for the link, such as "Visit my LinkedIn profile."

- Embed an image using the <img> tag, linking to a personal photo. Assign the "src" attribute to the image file and provide "alt" text for accessibility.

Activity 2: Employee Data

Use the table you created in the unit 2.1(HTML Fundamentals) and integrate the specified features:

- Inside one of the cells, use an anchor tag (<a>) to link to the employee's profile page. Include relevant text like "View Profile."

- In another cell, use an image tag (<img>) to display a small thumbnail of the employee. Link the image to their photo file using the "src" attribute.
